and  
20 SPRING YEARLING BULLS SELL

AT MILL BRAE RANCH - MAPLE HILL, KANSAS

3 . 24 . 2023

---

## STAY THE COURSE

---

2023 marks 30 years in the registered Angus breed and over 30 years in custom A.I., breeding, on average, 9,000 head every year. We are thankful for your support over the years. In 2023, we also will hold the first joint bull sale with Mill Brae Ranch and are excited for the offering from both programs.

We are encouraged with the feedback on the bulls. For those new to our program, the bulls are developed on a pasture-based system with limited supplementation. Developing on grass allows us to bring them along in a slower and more consistent manner. Our cowherd has a strong maternal foundation from decades of strict culling protocols. We make no excuse for any animal or situation and use the same principles throughout the herd.

Give us a call to visit about our program anytime.  
Visitors are always welcome.

---

### 2023 AGE-ADVANTAGED SIRE GROUPS INCLUDE:

- E&B PLUS ONE
- KG JUSTIFIED 3023
- BASIN RAINMAKER 4404
- SAV RAINFALL 6846

## A PROVEN PROGRAM BACKED BY A DISCIPLINED APPROACH

Built on honesty, integrity and hardworking cattle powered by a maternally efficient cowherd with exceptional udder quality, calm dispositions, and sound foot structure; traits we value and critically assess along with a complement of balanced EPDs.

**Selling ET flush brothers from these cornerstone females sired by  
Mill Brae Benchmark, Crawford Guarantee, and E&B Plus One.**

We're excited for the opportunity to join together with Barrett Cattle in holding a joint bull sale at the ranch. Although there have been some changes, a few things remain the same - the people, the cattle, and the philosophy.
